

Elbow - 4" (100 mm) Storz Rigid x 4.5" (115 mm) NHF Swivel Rocker

The Most Reliable Elbows for Firefighting Operations

Categories: Buy Online, Elbows

Elbows engineered for versatility, durability, and efficiency, ensuring secure and adaptable connections in a wide range of firefighting applications. With options for Storz, NH, NPSH, and proprietary couplings, these elbows are available in a range of sizes and configurations to meet your needs. Designed with features like swivel couplings, easy-to-grip handles, and detent swivel options, they enhance maneuverability and reliability under pressure. These elbows are crafted from high-quality materials and feature durable coatings, offering long-lasting performance and professional-grade solutions for any fireground scenario.

Key Features:

- **Comprehensive Compatibility:** Fits NH, Storz, NPSH, and proprietary couplings for versatile applications
- **Wide Size Range:** Available in sizes from 2.5" to 6" to accommodate various equipment
- **Durable Construction:** Built from premium materials for reliable performance in demanding environments
- **Connection Options:** Enhance flexibility and ease of use during connections
- **Detent Swivels:** Provide precise positioning for optimal alignment
- **Rigid and Swivel Couplings:** Options for both secure fixed connections and flexible movement
- **Quick-Connect Functionality:** Storz couplings streamline setup and takedown
- **Professional Finish:** Sleek silver appearance adds to a polished, professional look

Specifications

Weight	9.107 lbs
Color	Silver
Side A Size (Imp)	4"
Side A Size (Met)	100 mm
Side A Coupling Type	Storz
Side A Coupling Style	Quick-Connect
Side A Coupling Swivel	Rigid
Side B Size (Imp)	4.5"
Side B Size (Met)	115 mm
Side B Coupling Type	NH Female
Side B Coupling Style	Rocker
Side B Coupling Swivel	Swivel
